

THE 3rd ANNUAL MEETING OF THE INTERNATIONAL MYOPIA SOCIETY

FRIDAY, 19 JUNE 2026

Institute of Science Tokyo, Akio Suzuki Memorial Hall

Main Meeting

Invited talks: 8 min. + 4 min. discussion; Submitted talks: 5 min., with Panel Discussion at the end

Time	Programme	Speakers
Session 1 (pidemiology) 08:00-09:05		
Chairs: Serge Resnikoff and Seang Mei Saw		
08:00-08:12	1. Lessons learned from recent epidemiological data on myopia	Serge Resnikoff
08:12-08:24	2. Natural History Study of Myopia	Yaxing Wang
08:24-08:36	3. The public health approach to decrease the myopia and high myopia prevalence in Taiwan	Pei-Chang Wu
08:36-08:48	4. The pattern of pathologic myopia in adults in prospective community cohorts	Seang Mei Saw
08:48-09:05	5. Panel Discussion	
Session 2 (etiology and AI) 09:05-10:35		
Chairs: Ian Flitcroft, Jost Jonas, Tien Yin Wong		
09:05-09:17	1. Puzzling over morphological features of myopia to understand its etiology	Jost Jonas
09:17-09:29	2. Spatial frequency and Myopia: Evidence from Clinical Trials	Weizhong Lan
09:29-09:41	3. High Myopia: from genetics to therapeutic development	Zi-Bin Jing
09:41-09:53	4. AI in Myopia	Marcus Ang
09:53-10:05	5. Current Challenges of AI in Medicine: Lessons for the Myopia Community	Tien Yin Wong
10:05-10:17	6. Anatomical Equivalent Refraction: an AI framework for managing and monitoring myopia-related vision impairment risks in children and adults	Ian Flitcroft
10:17-10:35	7. Panel Discussion	
Sponsored Symposium X 5 companies (18 min. x 5) 10:35-12:05 (90 min)		
*Santen		
*CooperVision		
*HOYA		
*Nikon-Essilor		
*EyeRising		
Poster Viewing over Lunch 12:05-12:50 (45min)		
Time	Programme	Speakers
Session 3 (prevention) 12:50-14:15		
Chairs: Audrey Chia, Jason Yam, Mingguang He		
12:50-13:02	1. Which Therapy Holds the Key to the Future of Childhood Myopia Management?	Foo Li Lian
13:02-13:14	2. Cost-effectiveness analysis of myopia control interventions	Jason Yam
13:14-13:26	3. Low level red-light therapy for myopia	Mingguang He
13:26-13:38	4. Pre-myopia: insights from ATOM3	Audrey Chia Wei Lin
13:38-13:50	5. Role of inflammation in myopic degeneration	Gemmy Cheung

13:50-13:55	Submitted Talk /Oral Paper 6. Two-year axial elongation under 0.05% atropine in children with long axial length (≥ 26 mm): a propensity score-matched study	Eri Ishikawa
13:55-14:00	7. Effect of Low-concentration Atropine Eyedrops on Parapapillary Gamma Zone Development and Enlargement over 3 Years: The Low-concentration Atropine for Myopia Progression (LAMP) Study	Yuzhou Zhang
14:00-14:15	8. Panel Discussion	

Session 4 (medical retina) 14:15-15:30

Chairs: Gemmy Cheung, Aude Couturier, Jose Maria Ruiz-Moreno

14:15-14:27	1. Characterization and progression of Myopic Chorioretinal Atrophy in a French Cohort	Aude Couturier
14:27-14:39	2. Management of myopic macular neovascularization	Timothy Lai
14:39-14:51	3. Clinical implications of posterior staphyloma in high myopic eyes	Jose Maria Ruiz-Moreno
14:51-15:03	4. Polarization-sensitive imaging of peripapillary sclera	Kyoko Ohno-Matsui
15:03-15:08	Submitted Talk /Oral Paper 5. Posterior Scleral Birefringence and Choroidal Thickness in Myopic Children Assessed by Triple-Input Polarization-Sensitive OCT	Leila Sara Eppenberger
15:08-15:13	6. Retinal Structural Interactions of Myopic Choroidal Neovascularization and Traction Maculopathy After Anti-VEGF Therapy	Yuxin Fang
15:13-15:30	7. Panel Discussion	

Sponsored Symposium X 2 companies (18 min.+16 min. =34 min.) 15:30-16:04

***Topcon (18 min.) *STAAR Surgical (16 min.)**

Tea Break 16.04-16.25 (21min)

Session 5 (surgical retina) 16:25-17:35

Chairs: Shu Yen Lee, Gavin Tan, Chi-Chun Lai

16:25-16:37	1. New Imaging of the Vitreous in High Myopia	Richard Spaide
16:37-16:49	2. peripheral retinal changes and retinal detachments in young myopic adults (tentative)	Shu Yen Lee
16:49-17:01	3. surgery for myopic tractional maculopathy : vitrectomy s macular buckle?	Gavin Tan
17:01-17:13	4. Macular Hole Closure Patterns after Macular Hole Retinal Detachment Surgery in Highly Myopic Eyes	Chi-Chun Lai
17:13-17:18	Submitted Talk /Oral Paper 5. Myopia and Surgical Outcomes in Young Adult Retinal Detachment	Stanley Poh
17:18-17:35	6. Panel Discussion	

Session 6 (glaucoma) 17:35-18:35

Chairs: Ki Ho Park, Xiulan Zhang, Rachel Chong

17:35-17:47	1. Which patients are at risk of progression in myopic glaucoma?	Ki Ho Park
17:47-17:59	2. Differentiating Glaucomatous and Myopic Optic Neuropathy with Optical Coherence Tomography	Xiulan Zhang
17:59-18:11	3. Associations between Intraocular Pressure and Pathology	Rachel Chong

<p>18:11-18:16</p> <p>18:16-18:35</p>	<p>Submitted Talk /Oral Paper</p> <p>4. Intraocular pressure-lowering therapy slows down axial elongation in progressive high myopia with enhanced choroidal perfusion</p> <p>5. Panel Discussion</p>	<p>Fengbin Lin</p>
<p>Faculty Dinner 19:00- 20:00</p>
